

# HT 106 F

hex crimp tool for RG6 .360" & RG11

- the precision quality alloy steel jaws are self-bottoming and will not over-crimp
- toggle action delivers correct crimping force
- easy and precise compression adjustment with star wheel
- rugged steel frame with heat treated pins for maximum strength and trouble free operation

## Applicable connectors

PRODUCT NAME	DESCRIPTION
RG6-324	RG6 crimp "F" connector
IEC-324M	RG6 IEC male crimp connector
RG11-IEC	RG11 crimp IEC connector
RG11-F15LS	RG11 "F" connector with pin
RG11-C-39	RG11 feed through "F" connector
RG11-F-WR	water resist RG11 crimp "F" connector
RG11-F15-1	RG11 "F" connector
90-RG11-F15-1	RG11 90° crimp "F" connector

### Work process:

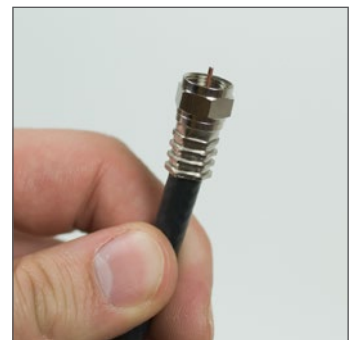

step 1.

step 2.

step 3.

step 4.

# HT 106 H

hex crimp tool for RG6 .324" & .360"

- the precision quality alloy steel jaws are self-bottoming and will not over-crimp
- toggle action delivers correct crimping force
- easy and precise compression adjustment with star wheel
- rugged steel frame with heat treated pins for maximum strength and trouble free operation

**Applicable connectors**

PRODUCT NAME	DESCRIPTION
RG6-324	RG6 crimp "F" connector
RG6-360-WR	RG6 crimp "F" connector (water resistant)
IEC-324M	RG6 IEC male crimp connector
IEC-360M	RG6 IEC male crimp connector
IEC-360F	RG6 IEC female crimp connector
RG6-IEC	RG6 crimp IEC connector

**Work process:**

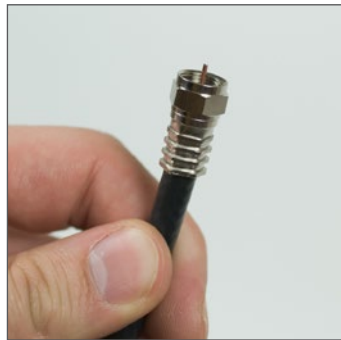

step 1.

step 2.

step 3.

step 4.

# HT 106 M

hex crimp tool for RG6 .324" & RG11

- the precision quality alloy steel jaws are self-bottoming and will not over-crimp
